FAQ's

We understand that purchasing a pod is a big decision, so we have tried to help out with some frequently asked questions below...

Q : Can my Smartpod be relocated?

A : Yes, if for any reason it needs to be moved we simply pick it up with a crane or similar and away it goes

Q : Does the Smartpod come with warranty?

A : Yes! A 10-year structural warranty.

Q : What is the life expectancy of a Smartpod?

A : Your Smartpod has a 35+ year life expectancy.

Q : Can I choose my own internal and external finish?

A : Absolutely! Our packages can be totally customisable to suit.

Q : How soon can I have my Smartpod?

A : From order confirmation and deposit, your Smartpod is aimed to be delivered between 10 to 14 weeks!

Q : Can my Smartpod be installed on any surface?

A : Yes! A hardstanding surface is the easiest, but if installed on grass we can just use our ground screws. (This also works on sloped surfaces)

Testimonial

“We have three Smartpods here at St Nicolas. Smartpod is a solution we would highly recommend for any school; the process is so simple from ordering to delivery. It brings our learning from inside to outside and has a massive impact on the well-being of our pupils and staff members”

Siobhan Doherty

Assistant Headteacher

St Nicolas Primary School

one space • endless uses

Why Choose a Smartpod
